

# II Global Forum of Local Governments

Seville, Spain

ACCIONA Producciones y Diseño (APD) was responsible for supplying the audiovisual equipment and the technical services and designing and producing the II Global Forum of Local Governments, which took place on 24, 25 and 26 January 2019 in Seville.

The event was officiated by HM The King of Spain, Felipe VI, and involved 170 local government delegations from around the world, institutions and companies who came together to discuss and analyse the major global challenges to creating more inclusive and sustainable development from an economic, social and environmental perspective.

Up to 1,100 people took part in this second edition of the Forum, which featured an extensive program of activities, mainly held at FIBES, Seville's exhibition and conference centre. Other activities in the program took place at the Royal Alcázar of Seville, where a gala dinner and the "Golden Experiences" awards ceremony were held, and at Seville City Hall, where the closing ceremony for the event took place.

The main location for the Forum was Pavilion II of Seville's Conference and Exhibition Centre, where the main activities of the event took place. This hall hosted talks and discussion sessions, as well as several institutional events including the opening ceremony by the Mayor of Seville, Juan Espadas; the official inauguration by the Deputy Prime Minister of the Spanish government, Carmen Calvo; and the central event, officiated by HM King Felipe VI.
